

CAN YOU INSPIRE?

Safeguarding trainers

Across Staffordshire we are currently offering Scouting to more young people than ever before and we pride ourselves on doing this safely for everyone.

As part of our commitment to delivering safeguarding training to more adults, we are looking to create a small team of safeguarding trainers to support our Safeguarding awareness co-ordinator in delivering training across the county.

We are looking for someone who is motivated to support others.

Could you help deliver this important message?

For more information or to express your interest.
